

GURURAJ KL

DOTNET FULL STACK DEVELOPER

Bengaluru, KA (IN) | 8618098688 | gururajragavendra7@gmail.com

Objective

Proficient and results-driven .NET Developer with over 4+ years of hands-on experience in building robust and scalable applications. Seeking a challenging role in a reputable organization to apply my technical, database, and project management skills, while continuing to grow with emerging technologies in the IT sector.

Key Competencies

Technologies: WPF, ASP.NET core and ASP.NET, MAUI, Angular

Cloud & DevOps: Docker, Azure, Kubernetes

Database: SQL Server, Oracle SQL, PSSQL

Languages: C#, JS, TS

Version Control: JIRA, GIT, Source tree

Tools: Visual Studio, Visual Studio Code, Postman, Figma

Experience

Siemens Healthineers | Senior Software Engineer | Olympus

July 2026 – Present

Contributing to the development of Olympus, an inventory management application supporting Radiopharma business operations within Siemens Healthineers. Developing the desktop application using WPF and following the MVVM architecture to build maintainable and scalable user interfaces. Working on backend development using ASP.NET and Entity Framework to implement application functionality and data access. Working in a healthcare software environment where reliable application workflows support critical Radiopharma operations.

Sasken technologies limited | Honeywell PrintSet6

Apr 2024 - July 2026

Worked as a Full Stack .NET Developer on the greenfield development of Honeywell PrintSet (PS6), a printer configuration and management application for Honeywell printers. Contributed to both front-end and back-end development using WPF, .NET MAUI, and .NET technologies. Designed and implemented AI powered features by integrating Semantic Kernel, Azure OpenAI Service, Azure AI Search, and Azure Blob Storage, enabling users to interact with Azure OpenAI models and receive intelligent, context aware responses within the application.

Sasken technologies limited | Kontron AFC

Jan 2024 - Apr 2024

AFC is a contactless smart card-based end to end solution for fare collection of public transport system. Advanced AFC system offers management of products, sales, passenger accounts and release

management solution for devices like validators and Automatic vending machine. Instrumental in optimizing system efficiency resulting in user satisfaction and improved public transport experience.

Sasken technologies limited | Track Machine Connected Smart ALC

Aug 2022 - Dec 2023

Contributed to the TMC: Track Machine Connected (Europe based Project) initiative, acquiring hands-on experience in a diverse range of technologies including WPF, XAML. Leveraged Agile development methodologies and utilized tools like Jira - Atlassian to streamline collaboration and project management processes. Developed efficient and scalable solutions, implementing best practices, and ensuring code quality.

Education

BE in Computer Science and Engineering

2018 - 2022

Sri Rajarajeswari College of Engineering | 8.58 CGPA

PUC (PCMCs)

2017 - 2018

Sree Lakshmi PU College | 91%

Soft Skills

Strong problem-solving capability, Effective Team player, Excellent time management, Clear and professional communication.
